

Enhances the recovery efficiency by controlling the proper vacuum rate for each sample

System 5 System Code SYS09093

Product	Model	Cat. No.
Rotary Evaporator	N-1001S-W	216948
Low Temperature Circulator	CCA-1111	219950
Vacuum Controller	NVC-2100	216630
Diaphragm Vacuum Pump	DNAC 1.2L	170660

Traps exhaust air and conducts vacuum control.

System 6 System Code SYS09094

Product	Model	Cat. No.
Rotary Evaporator	N-1001S-W	216948
Low Temperature Circulator	CCA-1111	219950
Solvent Recovery Unit	DPE-1220C	216680
Diaphragm Vacuum Pump	DTC-21	188870

Enhances the recovery efficiency and traps the exhaust air. Also shuts out the smelled components.

System 7 System Code SYS09095

Product	Model	Cat. No.
Rotary Evaporator	N-1001S-W	216948
Low Temperature Circulator	CCA-1111	219950
Solvent Recovery Unit	DPE-1120	216660
Diaphragm Vacuum Pump	DNAC 1.2L	170660

Component Parts of EYELA Evaporators

EYELA Original parts will fully enhance and maintain the performance of EYELA evaporators. All the parts are manufactured following strict EYELA quality standards. It is highly recommended to use only these genuine original parts for EYELA products. Parts name and cat. No. are referred in the tables.
